

Plant Assessment: RIIMPO321F - Conduct civil construction wheeled front end loader operations

Course Outline:

This course covers the skills and knowledge required to operate a wheeled front end loader safely, effectively and efficiently according to workplace procedures, including:

- pre-start checks prior to commencing operations;
- driving and operating the equipment to site conditions;
- completing operations using at least two different types of material;
- lifting and carrying materials
- assisting with loading and unloading wheeled front end loader from float/trailer
- using a range of communication techniques and equipment essential to the safe completion of work activities;
- parking and securing equipment;
- site clean-up;
- written and verbal reporting.

Please Note: This course does not provide sufficient skill to independently load and unload equipment. To perform this activity safely, individuals must either complete, or be assisted by someone who has completed, RIIHAN308F Load and Unload Plant.

Location:

Assessments are conducted onsite using the workplace equipment.

Duration:

Assessment is conducted over one day

Cost:

Assessments can be charged per assessment or as a day rate.
