

Plant Assessment: RIIMPO324F Conduct civil construction grader operations

Course Outline:

This course covers the skills and knowledge required to conduct grader operations that safely, effectively and efficiently follow workplace procedures including:

- prestart checks prior to commencing operations;
- driving and operating the equipment, including techniques to suit site conditions;
- completing operations to specification using different material types;
- selecting, fitting, testing, using and removing attachments;
- using appropriate communication techniques and signals in line with site procedures;
- written and verbal reporting requirements associated with equipment operations;
- preparing grader for relocation;
- shutdown procedures on completion of operations; and
- site clean-up requirements.

Location:

Assessments are conducted onsite using the workplace equipment.

Duration:

Assessment is conducted over one day

Cost:

Assessments can be charged per assessment or as a day rate.
