

RIIWHS204D Work Safely at Heights

Course Outline:

This course covers working at heights in the infrastructure and civil construction industries.

It includes:

- identifying the work requirements to work at heights
- understanding procedures and instructions for the task
- accessing and installing equipment
- fitting and using appropriate fall protection protective equipment (FPPE)
- performing work at heights
- returning the work area to service.

Both theory and practical are covered in the course, which can be contextualised to be relevant to a broad range of workplace environments.
